PROFILE SUMMARY

Applied Economist and Data Scientist with experience conducting policy-relevant research in education, workforce development, labor, and health policy. Specializes in program evaluation, causal inference, complex data analysis, predictive modeling, and translating technical findings into reports and client-facing presentations. Experienced working with nonprofit, government, and university research partners.

CORE SKILLS

Program Evaluation, Causal Inference, Statistical & Econometric Methods, Predictive Modeling, Administrative & Survey Data, Missing Data Methods, Data Visualization, Research Communication

TECHNICAL SKILLS AND PROJECT TOOLS

R, Stata, Python, SQL, Tableau, Latex, Asana

EDUCATION

Ph.D. in Economics, University of Nebraska-Lincoln 2023

Master of Science in Economics, Texas A&M University 2016

Bachelor of Science in International Economics, Tajik State University of law, business and politics

SELECTED PROFESSIONAL EXPERIENCE

Social Scientist November 2024-June 2026
Far Harbor, LLC *Austin, TX*

- Led end-to-end quantitative research projects in public health and education, from framing research questions to final delivery for nonprofit and government clients.
- Developed predictive models using machine model approaches using linked EHR, surveillance, and administrative data.
- Developed a value-added model adapting VAM methods to aggregated data and applying statistical techniques to improve estimate reliability, validate results, and produce audience-tailored performance measures
- Built reproducible analytical workflows and accompanying technical documentation, enabling clients to reproduce analyses with existing or updated data.

Co-adjutant Researcher November 2024-December 2024
Heldrich Center for Workforce Development, Rutgers University *New Brunswick, NJ*

- Finalized analysis and manuscript materials for ongoing Health Profession Opportunity Grants research in preparation for conference presentation and journal submission.
- Presented research findings at the Association for Public Policy Analysis and Management (APPAM) conference.

Postdoctoral Fellow July 2023-November 2024
Heldrich Center for Workforce Development, Rutgers University *New Brunswick, NJ*

- Conducted policy-relevant research on education, workforce development, unemployment insurance, and labor market outcomes using restricted administrative data and quantitative methods.
- Co-authored two reports on Dual Enrollment participation and postsecondary outcomes in New Jersey, conducting quantitative analysis, interpreting findings, and report development.
- Led research evaluating a federal career-pathways program for low-income individuals pursuing healthcare occupations, including study design, data analysis, modeling, interpretation, and manuscript development.
- Collaborated with state partners on unemployment insurance equity research, supporting study design, modeling, interpretation, and communication of findings.

- Co-authored national and state-level analyses of labor force participation and contributed to grant proposals and stakeholder-facing deliverables.

Graduate Research Assistant
University of Nebraska-Lincoln

August 2018 - May 2022
Lincoln, NE

- Conducted independent and collaborative empirical research using micro-level data, econometric methods, and causal inference approaches; presented findings at academic conferences and research seminars.

Teaching Instructor/Teaching Assistant
University of Nebraska-Lincoln

August 2018 - May 2022
Lincoln, NE

- Independently taught Principles of Economics in in-person and online formats and supported undergraduate- and graduate-level economics courses as a teaching assistant.

Business Development Specialist
RSM Tajikistan

October 2016 - March 2017
Dushanbe, Tajikistan

- Supported business development through market research, client needs assessment, proposal writing, lead generation, and competitor analysis.

Research Consultant
Ministry of Economic Development and Trade of Tajikistan/World Bank

January 2017 - August 2017
Dushanbe, Tajikistan

- Prepared an analytical report on remittance use by Tajik households, combining literature review, data analysis, interpretation, and policy implications.

Economist/Intern
Devtech Systems Inc

May 2015 - August 2015
Arlington, VA

- Contributed to an analytical report on political and economic conditions in South Asia and developed a concept note on labor migration.
